

Datasheet Number & Version	PDT135 Ver1
Based on Software Build No.	12.6.1.12182
Function	Setting GRNs to Auto On-Hold
Module	Product
Datasheet Name	Auto On-Hold for GRNs

All new procedures and processes should be checked in a 'Test' environment before being applied to the 'Live' business system. Note that fields marked  are mandatory and must have data entered. When commissioning a new module please note that the parameters will need to be set, and reference should be made to datasheet SYS101, System Manager – Module Parameter Settings

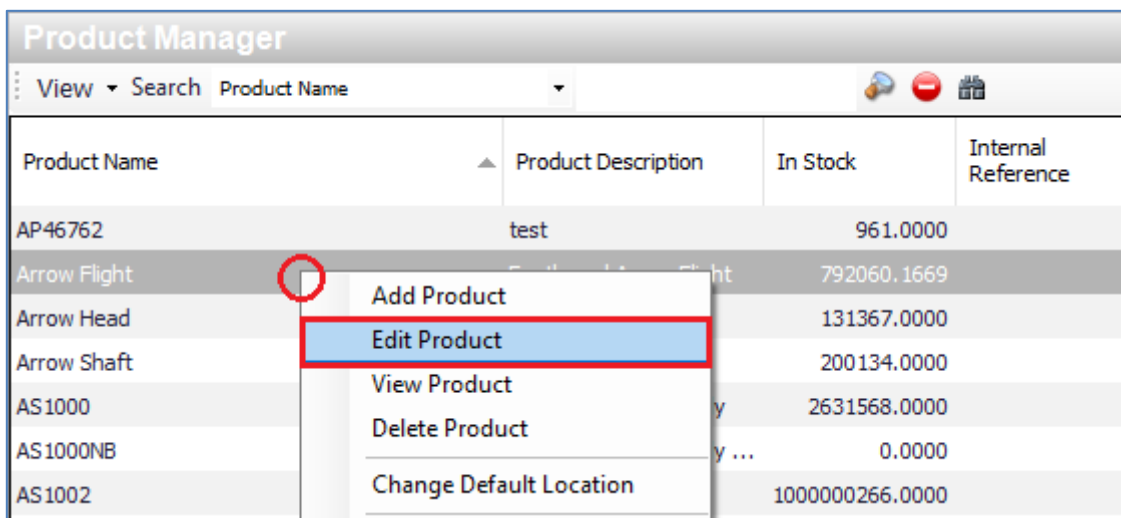

Auto On-Hold for GRNs

1. Setting the Product to Auto On-Hold

- a) Select the Product module, then double-click Product Manager.

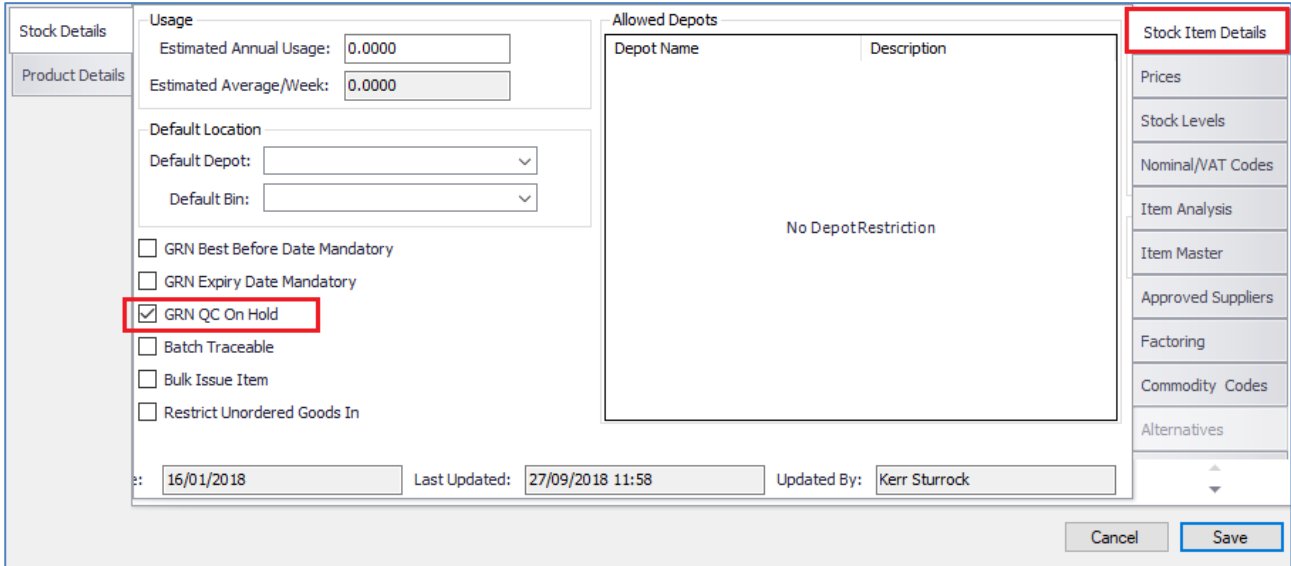

- b) Right-click the selected Product, then select Edit Product.

Datasheet Number & Version	PDT135 Ver1
Based on Software Build No.	12.6.1.12182

Module	Product
Datasheet Name	Auto On-Hold for GRNs

- c) Within the Stock Details tab, select Stock Item Details. Locate the setting GRN QC On Hold and tick the checkbox.

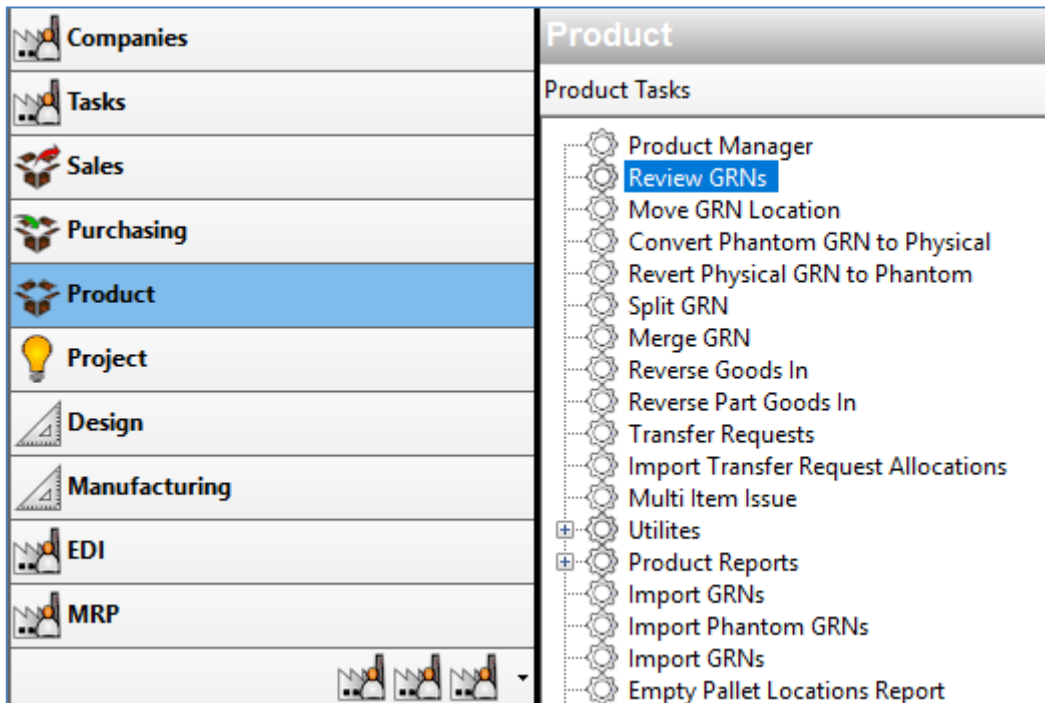

When this setting is enabled, all GRNs booked in for this Product will automatically go On-Hold.

The screenshot shows the 'Stock Item Details' configuration window. On the left, under 'Usage', the 'GRN QC On Hold' checkbox is checked and highlighted with a red box. Other options like 'GRN Best Before Date Mandatory' and 'GRN Expiry Date Mandatory' are unchecked. The 'Allowed Depots' section shows a table with 'No DepotRestriction'. The right sidebar shows 'Stock Item Details' selected, with other options like 'Prices', 'Stock Levels', and 'Nominal/VAT Codes' visible. At the bottom, there are fields for 'Last Updated: 27/09/2018 11:58' and 'Updated By: Kerr Sturrock', along with 'Cancel' and 'Save' buttons.

2. Removing the Product from On-Hold

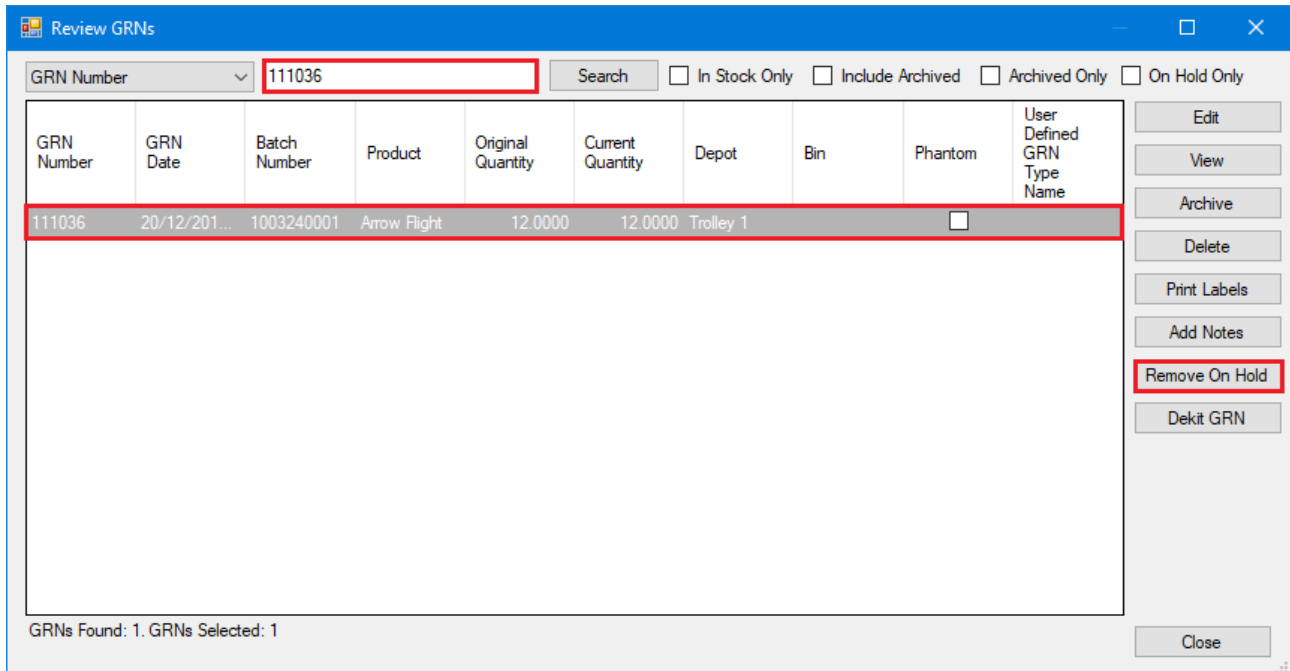

- a) Select the Product module, then double-click Review GRNs.

The screenshot shows the SAP Product Manager interface. On the left, a sidebar lists various modules: Companies, Tasks, Sales, Purchasing, Product (highlighted in blue), Project, Design, Manufacturing, EDI, and MRP. On the right, the 'Product Tasks' list is displayed, with 'Review GRNs' highlighted in blue. Other tasks include 'Product Manager', 'Move GRN Location', 'Convert Phantom GRN to Physical', 'Revert Physical GRN to Phantom', 'Split GRN', 'Merge GRN', 'Reverse Goods In', 'Reverse Part Goods In', 'Transfer Requests', 'Import Transfer Request Allocations', 'Multi Item Issue', 'Utilites', 'Product Reports', 'Import GRNs', 'Import Phantom GRNs', and 'Empty Pallet Locations Report'.
